PROJECT TITLE: South Boathouse Protection

LOCATION: Sugar Pine Point State Park

COUNTY: El Dorado

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT: On December 1, 2011 high waves damaged the South Boathouse at Sugar Pine Point State Park causing the foundation to become instable undermining of the rail ties supporting the marine rails and bending the marine rails. To temporarily protect the historic Boathouse from winter storm wave action work will use a John Deer 80 excavator to place three to five foot native granite boulders along approximately 70 feet of eroded shoreline to the north and south of the building and place large native rock behind the boulders to fill gaps to match existing grade.

PUBLIC AGENCY APPROVING THE PROJECT: California Department of Parks and Recreation
